

# STREET FEST

## CLASSIC CARS WITH MATT AVERY

On display will be a special collection of vehicles, assembled by the Daily Herald's classic and speciality car authority, Matt Avery. A major attraction will be his 'Original Owner Showcase'. Here, the highlight is on owners who purchased their classic machines brand-new and have held onto them for decades. Come hear their tales of long-time ownership and what it was like to step onto the showroom floor and drive off in some of the most iconic muscle and cruising machines. Another display area of the show will be the 'Shop Spotlight'. In this section, top suburban hot rod, custom and tuning shops will showcase their latest four-wheeled creations. Avery will be interviewing the men and women responsible for the rolling stars and finding out how these incredible machines came together. You'll also have the chance to meet Matt, share with him your car memories and hear how he goes about getting the perfect story for his 'Classic Recollections' column.

The 'Shop Spotlight' will include top area builders like AMS Performance Custom Classics, and DreamWerke. Vehicles on display will include a recently completed 2,200-horsepower 1961 Chevy Impala, 1961 Cadillac Series 62, and 2015 Libertywalk Challenger Hellcat.
